## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Detailed Action

1. The drawing and the specification are objected as failing to provide consistent use of numerals; and/or to contain all of the numbers in the other. For example note channel 55 in the specification and fitting 55 in Figure 9. Also note 29 on page 5 of the specification references bucket 29 and pivot 29. The drawing and the specification should be reviewed and amended to include consistent numerals and to use a numeral for only one part. At best a sketch of any proposed drawing change must be filed for review. The introduction of new matter should be guarded against.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2, 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The instant claims are in improper form and/or contain grammatical errors. Claim 2 consists of two sentences. Note the period in line 3. Each claim should consist of only one sentence. In claim 3, line 4, "frame" should be --frames-- and in claim 4, line 4, "it" should be --its--.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3652

5. Claim 4 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Opdahl.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1, 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bright et al in view of Pratt or vice versa.

It would have been obvious to provide hooks to the attachment device in Bright et al in view of the teaching in Pratt or to provide a bucket to the forks in Pratt in view of the teaching in Bright.
